1900-01

Memorandum by the Plague Commissioner after conferring with the Deputy Commissioner, Vice-President, and Chief Plague Officer, Mysore.

With a view to improve the sanitation of the Mysore City, it is necessary, first, to adopt the daily conservancy system without further delay. Steps should be taken to empty the existing privy pits, fill them with fresh earth and close them. In lieu of the pit system, daily conservancy will be introduced in accordance with the Bye-laws passed in 1898.

2. It is understood that the number of houses which have latrines with seats or platforms is about 2,232 and that of houses in which the pit system prevails is about 8,000. Also in houses in which privy seats are provided, the seats or platforms are too low to permit of a moveable receptacle being placed under them, as prescribed by the Bye-laws. In such cases, persons who can afford to alter and adapt the existing platforms at their own cost should be made to do the work within a given time—in default, they should be rigourously subjected to the penalties attaching to the breach of the Bye-laws.

3. The Municipal authorities will at once proceed with preparing a list of houses and house-owners coming under this category. As regards the poorer classes, a list will be similarly prepared and in their case the work of filling up the privy pits and substituting platforms should be done at the cost of the Municipality. The Vice-President will be good enough to prepare a list of these houses, showing the names of owners, cost of filling up pits and of putting up platforms within 7 days from this date. Where pits are filled in, provision should be made for an outlet for the drainage that used to flow into the pit. The grant for V shaped drains may be partially utilized for this work. Meanwhile he will start the work with the existing establishments.

4. It is understood that 70 additional scavengers have been engaged. These will be entertained as soon as they arrive, within 7 days from this date.

5. Night soil hand carts.—40 extra carts may be purchased.

6. The privy pits to be filled are estimated to be 2,000 and the cost of filling, on an average, at Rs. 5 each. The work will be taken in hand at once, and completed within a fortnight. Rs. 5,000 will be placed at the disposal of the President for this work from Plague Funds, necessary provision being made for the sum in the Budget for October 1900 with a view to adjusting the expenditure that may be incurred. The President expects to be able to finish the work within the limit allotted. The poorer classes

will themselves do most of the work and the cooly paid to them will serve as a sort of relief at this time of distress. The distress is great and prices are still high As in Bangalore, there is complaint of people suffering from insufficiency of food. This and other works of sanitation now ordered will thus be additionally beneficial to the people.

7. 21 Extra rubbish carts at Rs. 15 each to be employed.

8. A lump sum of Rs. 5,000 will also be advanced from Plague Funds to be set apart for the construction of V shaped drains, wherever necessary, on the condition that the amount be repaid when the general drainage scheme is sanctioned, or when a loan is raised by the Municipality.

9. It is desirable that to prevent overcrowding, persons dispossessed of their houses owing to the opening out of the congested parts or their houses being condemned under the Plague Regulations, should be provided with building sites in suitable localities selected for each community. It is also desirable that sanitary houses should be built for them at a cost not exceeding the compensation awarded to them. The Deputy Commissioner will be so good as to consult the heads of communities and mark out the localities which each community may select The localities so selected should be marked on a large scale map of the city and a sketch also should be prepared of the different types of houses proposed to be built, giving the approximate cost for each type of house. Four such different kinds of houses were ordered by me yesterday at Chetnahally camp. It is needless to point out that before a place is assigned for building, the main streets and conservancy lanes should be marked on the ground. The Deputy Commissioner and President, City Municipality, may consult the Municipal Commissioners in deciding the locality which should be assigned to each community.

10. A small working committee should be appointed at once which should have charge of running up houses for the poorer classes displaced from the City with the money awarded to them as compensation. Non-officials who are willing to render this service to the poor should be invited to sit on the committee.

CAMP, MYSORE,
11th September 1900.

V P. MADHAVA RAO,
Plague Commissioner in Mysore.

READ—

Letter No. (Camp) 9, dated the 12th September 1900, from the Plague Commissioner in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to forward herewith copy of a Memorandum drawn up by me in consultation with the local officers regarding improving the sanitation of the Mysore City and to request the favor of your obtaining Government sanction to the arrangements therein referred to.

(ENCLOSURE TO THE ABOVE).

With a view to improve the sanitation of the Mysore City, it is necessary, first, to adopt the daily conservancy system without further delay. Steps should be taken to empty the existing privy pits, fill them with fresh earth and close them. In lieu of the pit system, daily conservancy will be introduced in accordance with the Bye-laws passed in 1898.

2. It is understood that the number of houses which have latrines with seats or platforms is about 2,232 and that of houses in which the pit system prevails is about 8,000. Also in houses in which privy seats are provided, the seats or platforms are too low to permit of a movable receptacle being placed under them, as prescribed by the Bye-laws. In such cases, persons who can afford to alter and adopt the existing platforms at their own cost should be made to do the work within a given time—in default, they should be rigorously subjected to the penalties attaching to the breach of the Bye-laws.

3. The Municipal authorities will at once proceed with preparing a list of houses and house-owners coming under this category. As regards the poorer classes, a list will be similarly prepared and in their case the work of filling up the privy pits and substituting platforms should be done at the cost of the Municipality. The Vice-President will be good enough to prepare a list of these houses showing the names of owners, cost of filling up pits and of putting up platforms within seven days from this date. (Where pits are filled in, provision should be made for an outlet for the drainage that used to flow into the pit.) The grant for V-shaped drains may be partially utilized for this work. Meanwhile he will start the work with the existing establishments.

4. It is understood that 70 additional scavengers have been engaged. These will be entertained as soon as they arrive, within seven days from this date.

5. *Night Soil Hand-carts.*—Forty extra carts may be purchased.

6. The privy pits to be filled are estimated to be 2,000 and the cost of filling, on an average, at Rs. 5 each. The work will be taken in hand at once, and completed within a fortnight. Rupees 5,000 will be placed at the disposal of the President for this work from Plague Funds, necessary provision being made for the sum in the budget for October 1900 with a view to adjusting the expenditure that may be incurred. The President expects to be able to finish the work within the limit allotted. The poorer classes will themselves do most of the work and the cooly paid to them will serve as a sort of relief at this time of distress. The distress is great and prices are still high. As in Bangalore, there is complaint of people suffering from insufficiency of food. This and other works of sanitation now ordered will thus be additionally beneficial to the people.

7. Twenty-one extra rubbish carts at Rs. 15 each to be employed.

8. A lump-sum of Rs. 5,000 will also be advanced from Plague Funds to be set apart for the construction of V-shaped drains, wherever necessary, on the condition that the amount be repaid when the general drainage scheme is sanctioned, or when a loan is raised by the Municipality.

9. It is desirable that to prevent over-crowding, persons dispossessed of their houses, owing to the opening out of the congested parts or their houses being condemned under the Plague Regulations, should be provided with building sites in suitable localities selected for each community. It is also desirable that sanitary houses should be built for them

MYSORE CITY MUNICIPAL PRESIDENT'S OFFICE,

Dated 2nd July 1901 ~~189~~

To

The Assistant Secretary to the
Government of Mysore
Local Fund Branch —

SIR,

With reference to this office no 699 dated 24th April 1901, furnishing certain information called for, regarding expenditure already incurred out of the sum of Rs 10,000/- sanctioned in Government Proceedings no 210-12 dated 15th September 1900 for improving the sanitation of the city and soliciting permission to pay from the above amount, the cost of raising the wall opposite the Western Fort gate on the occasion of H. E. the Viceroy's visit to Mysore, I have the honor to state that it will take time to recover the cost of the said wall from the parties concerned, as regular suit to enforce payment, has —

has to be filed in the Court as per Section 241 of the Municipal Regulation; but the Contractor who executed the work, is too poor to await the decision of the Court

I request, therefore, that you will be kind enough to obtain early orders of Government to pay him the amount out of the above Sum of Rs 10,000/=

I have the honor to be,

Sir,

Your most obedient Servant

DEPARTMENT.

OFFICE OF THE COMPTROLLER, MYSORE GOVT.

Bangalore, 9th October 1897
76

From

E R. SUBRAYER, Esq., B.A; B.C.E.

Comptroller, Mysore Govt.

To H.S. Nanjundayya Esquire M.A; M.L.
~~The~~ *Secretary to the Govt. of Mysore,*

General & Revenue Dept.s

Sir,

With reference to Government Proceedings No. 5243-45 / L.B(P) 835 of the 24th Ultimo, sanctioning the proposal of the President City Municipality, Mysore, to the disbursement out of the loan of Rs.10,000/- (sanctioned in Government Proceedings No. 210-12 dated 15th September 1900), of Rs.7307/- being the cost of the wall raised opposite the Western Fort Gate to screen certain unsightly vacant sites from view on the occasion of H.E. the Viceroy's visit to Mysore, I have the honour to

to observe that the loan sanctioned, to the Mysore Municipality, in Proceedings No. 210-12 dated 15th September 1900, was only Rs 5000/- and not Rs 10,000/- as mentioned in the President's letter quoted in the Proceedings under reference. Attention is invited to this office No. Fg 163 of the 25th September 1900 and to Secretary's reply No. 367 dated 15th October 1900 from which you will observe that the sum of Rs 5000/- required for filling up Privy pits in Mysore, was a grant from Plague funds for which necessary provision was made in the Plague Budget for October 1900, and that consequently the loan, to the Municipality, was only Rs 5000/- intended for the construction of V. shaped drains

I have the honour to be
Sir
Your most obedient Servant
G Thompson
Comptroller
